

## Equivalence to a Doctoral Qualification: HDR Supervisor Registration

### 1.0 Purpose

### 2.0 Scope

### 3.0 Guidelines

#### 1.0 Purpose

These guidelines support the *HDR Supervision Procedure* and provide the framework by which the University assesses comparability of research experience with a doctoral qualification in an application for higher degree by research (HDR) supervisor registration.

#### 2.0 Scope

These guidelines apply to all academic staff or affiliate members of the University with, or applying for, accredited or transitional HDR supervisor registration, where the applicant does not possess a doctoral qualification.

#### 3.0 Guideline

The guidelines provided in Table 1 are to be applied in the context of the discipline and program learning outcomes for AQF (Australian Qualifications Framework) Level 10 qualifications. They are not exhaustive and should be interpreted as a guide. Academic Groups may require additional evidence or standards as appropriate for different disciplines.

There may be special circumstances not covered by these guidelines. In such cases, an academically defensible case must be made, with appropriate evidence as to how the skills, knowledge and experience of the academic staff member are equivalent to a doctoral degree.

**TABLE 1**

AQF Level	Registration level	Equivalence requirement	Guidelines on Equivalence
Level 9 Masters Degree (Research) OR Level 10 (Doctoral Degree)	Accredited OR Transitional	Research experience equivalent to a doctoral degree	An AQF Level 9 qualification  AND Current research experience in a relevant discipline demonstrating an original contribution to knowledge. Supporting evidence may include peer-reviewed research outputs (including non-traditional research outputs), completion of work towards a doctoral degree, research related award and/or prizes and expert commentary.  Evidence of research experience must be sufficient to allow consideration of the nature, amount and duration of research previously undertaken, including the extent of independent research, against the usual requirements for the award of a doctoral degree.

Title	Equivalence to a Doctoral Qualification: HDR Supervisor Registration
Document number	2023/0000450
Purpose	These guidelines support the Higher Degree by Research Supervision Procedure and provide the framework by which the University assesses comparability of research experience with a doctoral qualification in an application for higher degree by research (HDR) supervisor registration.
Audience	Staff
Category	Academic
Subcategory	Research
Approval date	June 2023
Effective date	1 July 2023
Review date	2027
Policy advisor	Senior Policy and Analytics Officer, Griffith Graduate Research School
Approving authority	Deputy Vice Chancellor (Research)
